WHY OUTSOURCE

Simply put, outsourcing your hospitality service is one of the most effective ways to save time and money, while maximizing the potential of your business. With Canada's minimum wage on the rise, and an increase in the costs required to recruit and train new staff members, along with variances in employee reliability, consistently maintaining a housekeeping roster that can execute day-to-day operations without interruption is both difficult and costly. Junior Enterprise Limited has designed its permanent and on-call hospitality services to help mitigate these factors, while being readily available to tackle any project at a moment's notice. Not only can we aid in expediting the housekeeping and laundry services to get guests into their rooms faster, but each and every one of our cleaning professionals comes equipped with extensive knowledge and expertise in five-star quality assurance. Working independently or alongside your existing team, Junior Enterprise Limited strives to cultivate strong personal relationships with every client, and dutifully and respectfully abides by all client-implemented protocol, including privacy, security, customer relations and uniform standards.

The Junior Enterprise mission is to support you in any and every capacity, while maximizing your efficiency and giving your staff and customers an unparalleled experience with a personal touch.

PRICING

At Junior Enterprise Limited we know that each and every client is unique, and we strive to deliver completely customized service packages and fee structures to best fulfill their needs. While we currently implement standard housekeeping fees, we will always work to deliver a detailed and customized proposal and quote for projects of any size. Junior Enterprise Limited is committed to honesty and transparency, and guarantees pricing and fees that are simple and clear.
